Our School Vision

Living and learning together as part of the family of God; we seek to inspire every person to be deeply rooted in the Christian faith and to experience being connected in a loving community – to grow, flourish and bear much fruit.

(inspired by John, Chapter 15:5)

At Holy Trinity our school values enable us to live out our school vision. They help us to be rooted in God, to live well as a community and enable us to flourish and bear much fruit in our learning and in our behaviour. Our school values form the basis of pattern of collective worship and we encourage everyone in the community to demonstrate and live out our vision.

At Holy Trinity Church of England Primary School spirituality is the inward journey, a move towards the depths of our being, where God is experienced. We describe spirituality as the quest for individual identity and the search for meaning and purpose in our existence. It leads towards the understanding of self and others. It has to do with feelings, emotions, attitudes and beliefs. It is not linked solely to a particular doctrine or faith and spiritual development is therefore accessible to everyone. This supports the multicultural and multi-faith context in our school, which we celebrate.

Holy Trinity Church of England Primary School aim is to: establish the right learning environment to enable the spiritual development of all pupils through the following objectives:

- Develop an appreciation of their uniqueness and value as a child made in the image of God;
- Develop an understanding of the distinctive ethos Holy Trinity Church of England Primary School as well as the context, language and symbolism of the Christian faith;
- Develop knowledge and understanding of the school's core Christian values and the Biblical teaching that underpins them;
- Develop an awareness of and respect for other people's beliefs and faiths and the ability to articulate their own;
- Develop an appreciation of what it means to be a part of a community (e.g. using their gifts and abilities in the service of others);
- Develop strategies to build good mental health (see mental health policy);
- Foster self-awareness and encourage pupils to make informed decisions;
- Develop the skills and language required to enable them to reflect upon the big questions and mysteries of life;
- Begin to understand and make sense of their own feelings and emotions around certain encounters and events that occur in their life;
- Develop an awareness that experiences of disappointment, failure and loss may be occasions for spiritual growth;
- Understand the value of difference and diversity through involvement with others;

- Encourage curiosity, creativity and imagination;
- Develop the ability to reflect upon experiences of awe, compassion, beauty, etc.
- Develop a capacity to value the natural world, a sense of awe and wonder and a commitment to care for creation.

These objectives will enable the pupils to have a quality of life that encompasses respect, awareness, compassion, curiosity, understanding and relationships that reflect order, reason, balance and integrity within the context of Christian faith.

Teaching and learning

Through teaching and learning, Holy Trinity School pursues the aims and objectives by ensuring:

- The curriculum and all areas of our community life will be driven by the school's Christian vision statement and associated values;
- Opportunities for spiritual development are actively planned into the curriculum and encouraged in all areas of school life;
- Unplanned and spontaneous spiritual opportunities for spiritual development are recognised, acknowledged and/or celebrated by staff and children;
- Collective worship celebrates the love of God for every individual and provides opportunities for children to respond and reflect on this;
- A solid understanding of the Christian concept of God as Father, Son and Holy Spirit; of prayer and of the Bible is nurtured and developed;
- That children's spiritual capacities such as imagination, empathy and insight are fostered through the creative arts and interactive multi-sensory teaching strategies making use of the outdoor environment and relevant educational visits;
- The provision of opportunities to listen attentively and observe carefully, listening with discernment, valuing what is good and worthwhile and making judgements through discussion and exchange of views and ideas;
- Support for learning to live with success and failure for themselves and with others;
- That the excellent RE curriculum delivers knowledge and understanding of spirituality from a number of world faith and world view perspectives;
- That children are given as many opportunities as possible to explore the wonder of the natural world and to develop an understanding of the Christian belief that creation is a gift from God to be enjoyed, cherished and protected;
- Promotion of strategies for positive mental health (see Appendix 1).

Approaches

At Holy Trinity School we seek to find ways in which all areas of the curriculum can contribute to children's spiritual development and to highlight opportunities for these in our planning by:

- Ability to be reflective about their own beliefs, religious or otherwise, that inform their perspective on life and their interest in and respect for different people's faiths, feelings and values
- Sense of enjoyment and fascination in learning about themselves, others and the world around them
- Use of imagination and creativity in their learning
- Willingness to reflect on their experiences
- Seeking to foster spiritual capacities, e.g. imagination, insight and empathy;
- Allowing children the security and opportunity to explore and express feelings and emotions and to celebrate diversity;
- Providing opportunities for prayer including silence and stillness;
- Sharing feelings and experiences that foster hope, joy, reassurance and encouragement;
- Encouraging children to develop relationships based on the school's Christian vision and associated values;
- Enabling children to make the links between the Church and Biblical teachings, the life of the school and the wider community and how these impact on their own understanding of themselves and their place within the world today;
- Providing an environment that promotes space to reflect, think and wonder, in our Godly Play Room and our prayer areas in each classroom.

Monitoring and evaluation

Spiritual development cannot be measured and continues throughout our lives. However, opportunities offered to children for spiritual development will be monitored and evaluated in the following ways;

- Observing and listening to children;
- Regular discussion at staff and governor meetings alongside the school's Christian vision and values;
- Sharing of classroom work and practice;
- Ensuring that staff have a clear understanding of what spirituality means in this school by providing them with induction and development training.
- Evidence from pupils' work, e.g. RE books, Floor Books, SMSC work, creative writing and art
- CPD opportunities and sharing examples of good practice with other schools.

Extract from the Mental Health and Wellbeing Guidance; Advice for Schools and SIAMS Inspectors 2018

1. Spirituality and mental health

The Royal College of Psychiatrists has published some useful guidance on spirituality and mental health where they identify ways in which some aspects of spirituality can offer real benefits for mental health. They identify spirituality as being within and beyond formal religion and recognise that it 'often becomes more important to people in times of emotional stress and physical and mental illness, loss, bereavement and the approach to death.

They recommend that a person with a religious belief may need support which acknowledges and gives space to their faith as part of their support. Schools should therefore look to provide opportunities for inclusive spiritual development that supports good mental health as well as opportunities to learn from people of different faiths and beliefs about how their spirituality shapes them and supports their mental health and wellbeing. Religious Education which offers the opportunity for young people to engage with a diversity of people can support this. Schools would also benefit from building relationships with the religious leaders in their community.
